

# 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Supplier Name EPIMAX TECHNOLOGIES PTY LTD

Address 4/3 Moorebank Avenue, Moorebank, NSW, AUSTRALIA, 2170

 Telephone
 1300 721 522

 Fax
 (02) 9904 3207

 Emergency
 1300 721 522

Synonym(s) 333AR COMPOUND • 4033620 - PRODUCT CODE

Use(s) TWO PART EPOXY RESIN COMPOSITION. USE WITH EPIMAX 333AR HARDENER

**SDS Date** 20/02/12

# 2. HAZARDS IDENTIFICATION

**RISK PHRASES** 

R 20/21 Harmful by inhalation and in contact with skin R 36/37/38 Irritating to eyes, respiratory system and skin R 43 May cause sensitisation by skin contact

R 48/50 Harmful: Danger of serious damage to health by prolonged exposure through inhalation

**SAFETY PHRASES** 

Do not breathe gas/fumes/vapour/spray (where applicable).

S24/25 Avoid contact with skin and eyes.

S29 Do not empty into drains.

S36/37/39 Wear suitable protective clothing, gloves and eye/face protection
S38 In case of insufficient ventilation, wear suitable respiratory equipment

UN No.	None allocated	DG CLASS	None allocated	Subsidiary Risk(s)	None allocated
Packing Group	None allocated	Hazchem Code	None allocated		

#### 3. COMPOSITION / INFORMATION ON INGREDIENTS

Ingredient	Formula	CAS NO.	Content
EPOXY NOVOLAC RESIN	NOT AVAILABLE	02064-14-4	30% - 60%
INERT FILLER	NOT AVAILABLE	01488-60-7	30% - 60%
NON HAZARDOUS INGREDIEN	TO 100%		

### 4. FIRST AID MEASURES

**Eye** If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing

until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation** If inhaled, remove from contaminated area. To protect rescuer, use a Type A (Organic

vapour) respirator or an Airline respirator (in poorly ventilated areas). Apply artificial

respiration if not breathing.

**Skin** If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with

running water. Continue flushing with water until advised to stop by a Poisons Information

Centre or a doctor.

Ingestion For advice, contact a Poison Information Centre on 13 11 26 (Australia Wide) or a doctor (at

once). If swallowed, do not induce vomiting.

**Special Treatment** Treat symptomatically.

#### 5. FIRE FIGHTING MEASURES

**Special Hazards** May evolve toxic gases (carbon oxides, phenols, hydrocarbons) when heated to

decomposition. Eliminate all ignition sources including cigarettes, open flames, spark producing switches/tools, heaters, naked lights, pilot lights, mobile phones etc. when

handling. Earth containers when dispensing fluids.

**Advice for firefighters** Evacuate area and contact emergency services. Toxic gases may be evolved in a fire

situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use

waterfog to cool intact containers and nearby storage areas.

**Extinguishing Media** Dry agent, carbon dioxide or water fog. Prevent contamination of drains or waterways

Hazchem Code None allocated.

### **6. ACCIDENTAL RELEASE MEASURES**

Spillage Contact emergency services where appropriate. Use personal protective equipment. Clear

area of all unprotected personnel. Ventilate area where possible. Contain spillage, then cover / absorb spill with non-combustible absorbent material (vermiculite, sand, or similar),

collect and place in suitable containers for disposal. Eliminate all ignition sources.

### 7. STORAGE AND HANDLING

**Storage** Store tightly sealed in a cool, dry, well ventilated area, removed from oxidising agents,

acids, alkalis, heat or ignition sources and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use. Check regularly for leaks or spills. Large storage areas should be bunded and have appropriate fire protection

and ventilation systems.

**Precautions for safe** 

handling

Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTIONS

**Exposure Stds** No exposure standard(s) allocated.

**Biological Limits** No biological limit allocated.

**Engineering Controls** Avoid inhalation. Use in well ventilated areas. Where an inhalation risk exists,

mechanical extraction ventilation is recommended.

PPE Wear splash-proof goggles, nitrile or viton (R) gloves, coveralls and a Type A

(Organic vapour) respirator. If sanding dry product, wear: a Class P1 (Particulate)

respirator. If spraying, with prolonged use, or if in confined areas, wear:

impervious coveralls and an Air-line respirator.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance VARIOUS COLOURS** Solubility (water) **INSOLUBLE** Odour **NOT AVAILABLE Specific Gravity** 1.70 **NOT AVAILABLE** рΗ % Volatiles **NOT AVAILABLE Vapour Pressure** NOT AVAILABLE **Flammability NOT AVAILABLE Vapour Density** NOT AVAILABLE **Flash Point NOT AVAILABLE Boiling Point** NOT DETERMINED **NOT AVAILABLE Upper Explosion Limit Melting Point NOT AVAILABLE Lower Explosion Limit NOT AVAILABLE Evaporation Rate NOT AVAILABLE** 

Autoignition RateNOT AVAILABLEDecomposition TemperatureNOT AVAILABLEPartition CoefficeentNOT AVAILABLEViscosityNOT AVAILABLE

## 10. STABILITY AND REACTIVITY

**Chemical Stability** Stable under recommended conditions of storage.

**Conditions to avoid** Avoid heat, sparks, open flames and other ignition sources.

Material to avoid Incompatible with oxidising agents (eg. hypochlorites), acids (eg. nitric acid), alkalis (eg.

hydroxides), heat and ignition sources.

**Hazardous** May evolve toxic gases (carbon oxides, phenols, hydrocarbons) when heated to

Decomposition

**Products** 

decomposition.

**Hazardous Reactions** Hazardous polymerization is not expected to occur.

#### 11. TOXICOLOGICAL INFORMATION

**Health hazard summary** Irritant - low to moderate toxicity. This product has the potential to cause adverse health

effects with over exposure. Use safe work practices to avoid eye or skin contact and inhalation. May cause sensitisation by skin contact. The cured product is considered non

toxic.

Eye Irritant. Contact may result in irritation, lacrimation, pain, redness and conjunctivitis. May

result in burns with prolonged contact.

**Inhalation** Irritant. Over exposure may result in irritation of the nose and throat, with coughing. High

level exposure may result in dizziness, drowsiness, breathing difficulties, pulmonary oedema

and unconsciousness. May cause sensitisation by inhalation.

**Skin** Irritant. Contact may result in irritation, redness, rash and dermatitis. May cause

sensitisation by skin contact.

**Ingestion** Moderate toxicity. Ingestion may result in nausea, vomiting, abdominal pain, diarrhoea,

fatigue, dizziness and unconsciousness.

**Toxicity Data** There is no toxicological information available for this product.

# 12. ECOLOGICAL INFORMATION

Other adverse effects Limited ecotoxicity data was available for this product at the time this report was prepared.

Ensure appropriate measures are taken to prevent this product from entering the

environment.

### 13. DISPOSAL CONSIDERATIONS

Waste disposal Mix parts A + B together (small amounts), absorb with sand, vermiculite or similar

and dispose of to an approved landfill site. Ensure protective equipment is worn when mixing. Do not seal containers/tins until reaction is complete. Contact the manufacturer for additional information. Prevent contamination of drains or

waterways as environmental damage may result.

**Legislation** Dispose of in accordance with relevant local legislation.

# 14. TRANSPORT INFORMATION

#### NOT CLASSIFIED AS A DANGEROUS GOOD THE CRITERIA OF THE ADG CODE

Shipping Name	None Allocated					
UN No.	None Allocated	DG CLASS	None Allocated	Subsidiary Risk(s)	None Allocated	
Packing Group	None Allocated	Hazchem Code	None Allocated			

### 15. REGULATORY INFORMATION

**Poison Schedule** Classified as a Schedule 5 (S5) Poison using the criteria in the Standard for the Uniform

Scheduling of Drugs and Poisons (SUSDP).

AICS All chemicals listed on the Australian Inventory of Chemical Substances (AICS).

# **16. OTHER INFORMATION**

Additional information This product is used in conjunction with EpiMax 333AR Hardener.

#### RESPIRATORS:

In general the use of respirators should be limited and engineering controls employed to avoid exposure. If respiratory equipment must be worn ensure correct respirator selection and training is undertaken. Remember that some respirators may be extremely uncomfortable when used for long periods. The use of air powered or air supplied respirators should be considered where prolonged or repeated use is necessary.

#### WELDING - SANDING - CUTTING DRIED OR CURED PRODUCT:

If sanding, cutting or welding dried or cured product, adverse health effects may be avoided by the use of appropriate engineering controls and/or personal protective equipment. If welding, wear a Class P2 (Metal fume) respirator and depending on the nature of the surface being welded, additional protection (eg. for organic vapours/acid gas) may also be required. A Class P1 (Particulate) respirator is recommended if dust is generated.

#### EPOXY - PHENOXY RESINS AND POLYURETHANES:

Where spray painting with two or more component epoxy resins or polyurethane paints is undertaken, an employee shall wear a air-line respirator, full length chemically resistant coveralls and gloves. Further, if an individual is to enter an enclosed booth where a vapour or gas curing process is occurring, an air-line respirator is required. Once cured, these resins are considered non toxic.

#### SYNERGISM - ANTAGONISM:

Ingredients in this product may act together to aggravate or reduce adverse effects. Accordingly the time weighted average concentration (TWA) provided for single ingredients should be considered as a guide only and all due care exercised when handling.

#### **ABBREVIATIONS:**

ACGIH - American Conference of Industrial Hygienists.

ADG - Australian Dangerous Goods.

BEI - Biological Exposure Indice(s).

CAS# - Chemical Abstract Service number - used to uniquely identify chemical compounds.

CNS - Central Nervous System.

EC No - European Community Number.

HSNO - Hazardous Substances and New Organisms.

IARC - International Agency for Research on Cancer.

mg/m³ - Milligrams per Cubic Metre.

NOS - Not Otherwise Specified.

pH - relates to hydrogen ion concentration using a scale of 0 (high acidic) to 14 (highly alkaline).

ppm - Parts Per Million.

RTECS - Registry of Toxic Effects of Chemical Substances.

STEL - Short Term Exposure Limit.

SWA - Safe Work Australia
