

# HPG-130 CRACK INJECTION KIT

Allduro now offer as standard in their range the ideal starter kit for the trade professional wanting to expand their job site capabilities.

The HPG-130 crack injection kit contains enough material to seal approximately 25 lineal meters of leaking hair line cracks in concrete substrates.

Ideal for sealing leaking cracks in tunnels, basements, water holding structures, manholes and carpark decks.

Priced at \$820.00 plus GST the HPG-130 crack injection kit presents outstanding value.
